GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE

14 November 1962

MEMORANDUM FOR THE CHAIRMAN, UNITED STATES INTELLIGENCE BOARD

SUBJECT: Working Group Structure of the Guided Missile and
Astronautics Intelligence Committee

REFERENCE: DCID 3/4 dated 3 February 1959

1. On 28 August 1962, in accordance with the authority outlined in paragraph 7 of reference, the Guided Missile and Astronautics Intelligence Committee (GMAIC) established Working Groups as outlined in attachment A. Chairmen of these Working Groups are to be appointed (or reappointed) every six months by GMAIC.

2. Each Working Group will provide in its specific area of responsibility recommendations which will permit GMAIC to discharge the responsibilities outlined in paragraphs 3 and 4 of reference. The area of responsibility of each Working Group is listed in attachment B.

3. This action was deemed necessary because the former Working Group structure left gaps in substantive areas of coverage and provided uneven work loads.

4. This memorandum is forwarded for information only; however, this matter can be discussed at your convenience, if you so desire.

Chairman
